## COMMUNICATION

Dear Sir:

This letter addresses the mistaken lapse of the above-captioned patent due to alleged nonpayment of the 3.5-year maintenance fee that was due no later than March 29, 2010. In fact, we did timely pay the maintenance fee. The following discussion sets forth how this firm followed all pertinent regulations in making the requisite 3.5-year maintenance payment. Accordingly, we request the Office reinstate the above-captioned patent as the fully paid-up, current patent that it is.

On March 29, 2010, this firm deposited into a U.S. postal box an envelope containing Maintenance Fee Transmittal Form PTO/SB/45 and a check for \$1,110.00, copies of which are attached. The sum of the check included \$980.00 for the payment of the 3.5-year maintenance fee (per 37 CFR §1.20(e)) plus \$130.00 for the payment of the surcharge for late payment within six months of \$130.00 (per 37 CFR §1.20(h)). The envelope had affixed to it sufficient postage for first class mail with the U.S. Postal Service.

As can readily be observed on the attached copies, both the Maintenance Fee Transmittal Form and the check clearly show the date of mailing: March 29, 2010. Included in the Maintenance Fee Transmittal Form is a certificate of correspondence, signed and dated March

## Certificate of Facsimile

I certify that this correspondence (along with any documents referenced as being included herewith) is being facsimile transmitted on June 8, 2010 to the United States Postal Service, Maintenance Fee Office (Fax No. (571) 273-6500)

Patent No. 7,018,408

6/8/2010

Attorney Docket No. 6051-009

29, 2010, and a recital that "a check for the amount of \$1,110.00 for the full payment of the maintenance fee and any necessary surcharge is enclosed."

March 29, 2010 was the last day of the 6-month grace period for paying the maintenance fee provided by 37 CFR §1.362(e). The Issue Date for the patent is March 28, 2006, making the four-year anniversary March 28, 2010. However, as March 28, 2010 was a Sunday, the final day was the following business day at the USPTO, i.e., March 29, 2010. Therefore, our mailing on that day was timely.

If necessary, we can and will provide an affidavit relating to our procedures and the fact that the aforementioned payment was timely deposited into a U.S. postal box. We have no way of knowing how, why, or where the payment was lost, but unfortunately such an event cannot be considered impossible as it is well-known that individual pieces of mail are lost regularly.

According to 37 CFR §1.8(a)(i)(1)(A) and §1.8(a)(ii), correspondence required to be filed in the USPTO within a set period of time will be considered timely filed if the correspondence is addressed as set out in 37 CFR §1.1(a), include a signed and dated mailing certificate, and is deposited with the U.S. Postal Service with sufficient postage for first class mail. Importantly, the code section does not require the U.S. Postal Office to provide any proof of receipt. As noted above, this firm complied with the prescribed procedures. In light of these facts, the correspondence and payment sent on March 29, 2010 meets the requirements of 37 CFR§ 1.8(a) and should be considered timely filed in spite of its non-receipt by the USPTO.

Our bank records are consistent with a lost check: Check #8743 for \$1,110.00 has not been presented for payment. Accordingly, the Director is hereby authorized to replace the funds represented by the lost check by deducting \$1,110.00 from the Deposit Account No. 18-2000 of Rosenbaum & Silvert, P.C., of which the undersigned is an authorized signatory.

In view of the above, the Commissioner is hereby requested to reinstate U.S. Patent 7,018,408 to unexpired standing because the 3.5-year maintenance fee and 6-month grace period surcharge were timely submitted in accordance with established procedures.
